

I love Indiana's NO CALL list for two reasons. As a consumer, I do not get the calls during dinner and asking me to purchase things I don't need. As a member of the investment world that utilizes Cold-Calling, it has made my life easier. No longer do individuals scream at me. Those who really hate telemarketers don't have to deal with me!

Please do not make a law that lessens the impact of Indiana's law!

I love not running to the phone for a telemarketer. I have reduced my telephone expense by not needing 'caller id'. I have 3-5 less hangups a week while I am at work. I deserve my quiet time!!
